

## **SVYS Registration Form Privacy Statement**

SVYS requests the information on this form to register families for participation in our programs. We will use this information to contact members regarding our programs, schedule, and fund-raising, and to contact responsible parties in an emergency. SVYS retains records of members' participation. We do not distribute your personal information to any third party.

### **Why do we ask for your child's school, private music teacher, and school music director?**

We want to acknowledge the music educators of our students in the printed concert programs. To build community SVYS awareness, we also like to contact local schools to let them know about our program and which of their students are participating.

### **How will SVYS use your E-mail addresses?**

SVYS recognizes that most families prefer to keep their incoming e-mail traffic to a minimum. We generally send e-mails when there is a schedule change, or as a reminder of an important event. We do not release our email list to any third party. We will honor your request to delete your e-mail address at any time. Messages will typically be sent to all e-mail addresses you provide, including the student's personal e-mail.

### **Why do we ask you to identify your employer?**

SVYS requests your employer information to assist in grant writing and to obtain matching charitable contributions from the many companies which offer them.

### **Why do we ask permission to publish your child's photo or name on the SVYS web site?**

The SVYS web site at [www.svys.org](http://www.svys.org) is a useful tool in communicating our mission and events to member families and the community at large. We believe the web site is more effective if it is personalized with news of students' involvement in our activities. We recognize that not all families want their children's photographs or names to appear on the internet, so we will honor your preference in this regard. Please check the opt-out box on the registration form if you elect to withhold this consent.

### **Why do we ask permission to publish your contact information in the member directory?**

SVYS prints a directory containing the names, address, phone numbers, and e-mails of current members. This directory is given only to current member families. It is not published on the web site. This directory is helpful in promoting communication among member families and for organizing rides and phone trees. If you would prefer that your contact information not be printed in the directory, please check the opt-out box on the registration form.
